

## UUP to ISO conversion tool

Original script by [MDL](#) members @abbodi1406 & @rgadguard

Additional editing & installer: @Kari (Ten Forums)

Special thanks: @Slicendice (Ten Forums)

---

### How To Use

1. Run installer **UUPtoISOSetup.exe**. It will install **UUPtoISO** to your selected folder (default: C:\UUPtoISO)
2. Application can be found in **Start > U > UUPtoISO** with links to run application and open the tutorial for complete instructions
3. Copy UUP upgrade folder path to clipboard. Folder can be found under **C:\Windows\SoftwareDistribution\Download**  
*-- OR --*  
If you have already upgraded, the folder is located under **C:\Windows.old\Windows\SoftwareDistribution\Download**
4. Launch application, paste UUP upgrade folder path to application, press **Enter**
5. ISO will be created in UUPtoISO folder
6. To uninstall **UUPtoISO**, use uninstaller in **Start > U > UUPtoISO**. Remember to move ISO image to a safe location before uninstalling!

See tutorial at **Ten Forums** for more detailed instructions:
